

Fw: CrewLife/Text to Work (UTU File: 151.14A)1 message

Fri, Jan 13, 2017 at 1:35 PM

Gentlemen

Our office has been advised by CMC Systems Director Jeff Hollenbeck that Crew Management has turned on the ability to Text employees to work through CrewLife and TECS. He advised the General Chairmen this will only include the simplest of calls and will NOT include running the roster or multiple choice calls.

Attached is the presentation he sent our office along with the System Notice that will be issued to all T&E Employees.

Mr. Hollenbeck advised the General Chairmen being text to work is providing options for the T&E employees and is not mandatory.

My personal opinion is that I would not subscribe to the capability in CrewLife to receive Text Messages from the Crew Management Center, but I understand we have members who will.

If you have any questions or concerns regarding this addition to CrewLife, please contact our office.

Feel free to distribute both attachments to your respective members.

Fraternally,

Steve Mavity

General Chairman – SMART TD - B&O General Committee
