Brothers

IMPORTANT FURLOUGH/QUALIFYING INFORMATION

Please find attached a copy of the Furlough Report our office received from CMC. This report reflects 2116 employees currently furloughed on the entire system. The Southern Region has 1333 employees currently furloughed and the Northern Region has 783 employees currently furloughed.

We currently have many employees who are being furloughed at various locations. To cut down on the confusion, our office contacted CMC Manager Mary Monhollen who has created a spreadsheet that will be updated at CMC throughout the week at each location where the employees are wanting to get qualified per our agreement. At the end of the week, CMC will contact the Trainmasters with the list of those employees who can qualify at their supply point based on the employees seniority. CMC will contact the employees and let them know which trainmaster to contact for information regarding them qualifying. CMC will then email the list of eligible employees (**based on the number of employees who can qualify at a time**) and send it to the point person at each supply point.

Mary has requested the Divisions send CMC a list of who will be the contact person at each terminal along with their phone number and how many employees they are able to qualify at a time at that location. She has requested the division also included how long it normally takes to get qualified at each supply point. Also, please instruct anyone calling the field to get qualified to contact CMC to be placed on the list for that location and based on seniority they will be called and notified when it's their turn to qualify. This will keep everyone on the same page and not waste manpower qualifying someone who cannot hold at that location.

Our members are entitled to be paid Code 17 to qualify at the next closest supply point they can hold a position

at. **They should NOT make a voluntary seniority move, if they do they will be required to qualify without pay.** Please instruct your members wishing to qualify at the next closest supply point to contact CMC Manager Mary Monhollen at [904-332-3855](tel:904-332-3855) to request they be allowed to make a seniority move to the next closest supply point to qualify. **They should also contact the Trainmaster at the next closest supply point they are interested in qualifying at.**

If you as local chairmen have an questions please contact our office or Mary Monhollen. Her number is [904-332-3855](tel:904-332-3855) and her e-mail address is Mary_Monhollen@csx.com

I have attached a copy of the CQ Agreement for your reference and file as well.

Fraternally,

Steve Mavity

General Chairman – UTU B&O General Committee
